EXPERIMENTAL EYE RESEARCH

Editors-in-Chief

ENDRE A. BALAZS and H. DAVSON

Executive Editors

A. I. Cohen
D. F. Cole
S. Futterman
C. N. Graymore
J. H. Kinoshita
V. E. Kinsey
M. E. Langham
D. M. Maurice
H. Ripps
A. Spector
R. Tripathi
J. A. Zadunaisky

Editors

A. Bill
L. Bito
H. Bloemendal
K. E. Eakins
Ruth Hubbard
S. Mishima
P. J. O'Brien
E. S. Perkins
Y. Pouliquen
J. W. Rohen

VOLUME 22

1976

ACADEMIC PRESS

London New York San Francisco

CONTENTS OF VOLUME 22

Number 1, January 1976

Harding, J. J. and Dilley, K. J., Structural Proteins of the Mammalian Lens: A Review with Emphasis on Changes in Development, Aging and Cataract 1

Sandberg, H. O., The Alpha-Crystallin Content of Aqueous Humour in Cortical, Nuclear, and Complicated Cataracts 75

Roelfzema, H., Broekhuyse, R. M. and Veerkamp, J. H., Lipids in Tissues of the Eye XI. Synthesis of Sphingomyelin in the Calf Lens 85

Number 2, February 1976

Brenner, S. L. and Parsegian, V. A., Suggested Explanation for the Anomalous Temperature Dependence of the Corneal Swelling Pressure 95

Organisciak, D. T. and Noell, W. K., Hereditary Retinal Dystrophy in the Rat: Lipid Composition of Debris 101

Zelenka, P. and Piatigorsky, J., Molecular Weight and Sequence Complexity of δ-Crystallin mRNA 115

Perry, M. M., A Method to Demonstrate the Fine Structural Components of Lens Fibre Cells 125

Hollyfield, J. G., In vitro Elimination of Oocyte Melanosomes from the Retinal Rudiment of the frog, *Rana pipiens* 129

Okisaka, S., The Effects of Prostaglandin E_1 on the Ciliary Epithelium and the Drainage Angle of Cynomolgus Monkeys: a Light- and Electron-microscopic Study 141

Dilley, K. J., Bron, A. J. and Habgood, J. O., Anterior Polar and Posterior Subcapsular Cataract in a Patient with Retinitis Pigmentosa: a Light-microscopic and Ultrastructural Study 155

Copeland, D. E., The Anatomy and Fine Structure of the Eye in Teleost. IV. The Choriocapillaris and the Dual Vascularization of the Area Centralis in *Fundulus grandis* 169

Forrester, J. V., Edgar, W., Prentice, C. R. M., Forbes, C. D. and Williamson, J., Intravitreal Fibrinolysis in Experimental Vitreous Haemorrhage 181

Letters to the Editors

Marshall, J. and Voaden, M. J., Further Observations on the Uptake of [^{3}H]Glycine by the Isolated Retina of the Frog 189

Miller, D. and Marchevsky, A., An Inexpensive Blowgun Device for Anterior Chamber Paracentesis 193

Number 3, March 1976

Yorio, T. and Bentley, P. J., The Effects of Hyperosmotic Agents on the Electrical Properties of the Amphibian Lens in vitro 195

Berman, M. B., Cavanagh, H. D. and Gage, J., Regulation of Collagenase Activity in the Ulcerating Cornea by Cyclic-AMP 209

Farber, D. B. and Lolley, R. N., Calcium and Magnesium Content of Rodent Photoreceptor Cells as Inferred from Studies of Retinal Degeneration 219

Palva, M. and Palkama, A., Electronmicroscopical Histochemical and Biochemical Findings on the Na-K-ATPase Activity in the Epithelium of the Rat Lens 229

Beebe, D. C. and Piatigorsky, J., Differential Synthesis of Crystallin and Noncrystallin Polypeptides during Lens Fiber Cell Differentiation in vitro 237

Trayhurn, P. and van Heyningen, R., Neutral Proteinase Activity in the Human Lens 251

Huhtala, A., Origin of Myelinated Nerves in the Rat Iris 259

CONTENTS

van Haeringen, N. J. and Glasius, E., The Origin of Some Enzymes in Tear Fluid, Determined by Comparative Investigation with Two Collection Methods 267
Roy, D. and Spector, A., High Molecular Weight Protein from Human Lenses 273
Letter to the Editors
Greiner, J. V., Chylack, L. T. and Pihlaja, D. J., Photomacrography of the Crystalline Normal and Cataractous Lens 281
Abstracts 285

Number 4, April 1976

Ozanics, V., Rayborn, M. and Sagun, D., Some Aspects of Corneal and Scleral Differentiation in the Primate 305
Miller, S. P., Arya, D. V. and Srivastava, S. K., Studies of γ-Glutamyl Transpeptidase in Human Ocular Tissues 329
Nelson, K. J. and Rafferty, N. S., A Scanning Electron Microscopic Study of Lens Fibers in Healing Mouse Lens 335
Sherrard, E. S., The Corneal Endothelium in vivo: its Response to Mild Trauma 347
Dohlman, C. D., Friend, J., Kalevar, V., Yagoda, D. and Balazs, E., The Glycoprotein (Mucus) Content of Tears from Normals and Dry Eye Patients 359
Nicotra, C. and Livrea, M. A., Alcohol Dehydrogenase and Retinol Dehydrogenase in Bovine Retinal Pigment Epithelium 367
Snyder, W. Z. and Zadunaisky, J. A., A Role for Calcium in the Migration of Retinal Screening Pigment in the Frog 377
Letters to the Editors
Bando, M., Nakajima, A., Nakagawa, M. and Hiraoka, T., Measurement of Protein Distribution in Human Lens by Microspectrophotometry 389
van Heyningen, R. and Pirie, A., Naphthalene Cataract in Pigmented and Albino Rabbits 393

Number 5, May 1976

Foreword iii
Bok, D. and Heller, J., Transport of Retinol from the Blood to the Retina: an Autoradiographic Study of the Pigment Epithelial Cell Surface Receptor for Plasma Retinol-binding Protein 395
Heller, J. and Bok, D., Transport of Retinol from the Blood to the Retina: Involvement of High Molecular Weight Lipoproteins as Intracellular Carriers 403
Wiggert, B. O., Bergsma, D. R. and Chader, G. J., Retinol Receptors of the Retina and Pigment Epithelium: Further Characterization and Species Variation 411
Futterman, S., Saari, J. C. and Swanson, D. E., Retinol and Retinoic Acid-binding Proteins in Bovine Retina: Aspects of Binding Specificity 419
Saari, J. C. and Futterman, S., Retinol-binding Protein in Bovine Retina: Isolation and Partial Characterization 425
Bridges, C. D. B., Vitamin A and the Role of the Pigment Epithelium During Bleaching and Regeneration of Rhodopsin in the Frog Eye 435
Hollyfield, J. G., Phagocytic Capabilities of the Pigment Epithelium 457
Hall, M. O. and Nir, I., The Binding of Concanavalin A to the Rod Outer Segments and Pigment Epithelium of Normal and RCS Rats 469
Lolley, R. N. and Farber, D. B., A Proposed Link between Debris Accumulation, Guanosine 3′,5′ Cyclic Monophosphate Changes and Photoreceptor Cell Degeneration in Retina of RCS Rats 477
Potts, A. M. and Au, P. C., The Affinity of Melanin for Inorganic Ions 487
Pautler, E. L. and Noell, W. K., The Slow ERG Potentials in Hereditary Retinal Dystrophy of Albino and Pigmented Rats 493

CONTENTS

Bellhorn, M. B. and Lewis, R. K., Localization of Ions in Retina by Secondary Ion Mass Spectrometry 505
Rothman, H., Feeney, L. and Berman, E. R., The Retinal Pigment Epithelium. Analytical Subcellular Fractionation with Special Reference to Acid Lipase 519
Feeney, L. and Mixon, R. N., An in vitro Model of Phagocytosis in Bovine and Human Retinal Pigment Epithelium 533
Robison, W. G. Jr. and Kuwabara, T., Light-induced Alterations of Retinal Pigment Epithelium in Black, Albino, and Beige Mice 549
Redfern, N., Israel, P., Bergsma, D., Robison, W. G. Jr., Whikehart, D. and Chader, G., Neural Retinal and Pigment Epithelial Cells in Culture: Patterns of Differentiation and Effects of Prostaglandins and Cyclic-AMP on Pigmentation 559

Number 6, June 1975

Kim, J. O. and Cotlier, E., Phospholipid Distributions and Fatty Acid Composition of Lysophosphatidylcholine and Phosphatidylcholine in Rabbit Aqueous Humor, Lens and Vitreous 569
Srivastava, S. K., Use of Hydroperoxides in the Studies of Glutathione Metabolism in Rat Lens 577
Laing, R. A., Sandstrom, M. M., Berrospi, A. R. and Leibowitz, H. M., Changes in the Corneal Endothelium as a Function of Age 587
Hall, M. O. and Bok, D., Reduction of the Retinal–Opsin Linkage in Isolated Frog Retinas 595
Miller, D. and Marchevsky, A., Effect of Soft Contact Lenses on Limbal Wound Healing 611
